DAVE HANSON (406)570-5519

COOPER HEREFORD RANCH

Welcome

A lot has transpired since we saw many of you at our bull sale in March. We hope you are all well and weathering the storm as best as possible.

It's been 15 years since hosting our last fall cow sale. September is a wonderful time to visit the "Big Sky" state and we welcome you to join us at the ranch to participate in our 7th "Top of the Tops" female sale. If traveling doesn't fit your comfort level, please contact us directly with any questions or bid requests as we will have a crew on hand very capable of holding absentee bids. As always, you'll have the opportunity to watch/bid live via Liveauctions.tv. Videos will be available on our website by early September.

This offering provides you with an excellent opportunity to select from the heart of our Line 1 program and includes ALL remaining females born in 2012, 2013, 2014, and 2015 along with a limited selection of those born in 2016 thru 2019. All in all, we will be selling close to 60 head of balanced, good producing females. These cows have survived our rigorous culling program for fertility, structural soundness, fleshing ability, mothering ability, milking ability, udder quality and performance. All lots have been parentage verified and sell with GE-EPD profiles. We plan to wean our calves a week early this year so as to have the cows in good condition on sale day. They will not be clipped or washed, but rather in their "work coat."

We remain committed to raising well balanced, functional cattle that perform in all segments of the beef industry and continue to do our part in helping move the Hereford breed forward. We've been performance testing for over 60 years, collecting carcass data on all bulls and females for the last 25 years and began genomic testing all animals 7 years ago. This data, combined with the relationships we've built with our customers over the past 70+ years, should lend you confidence when purchasing breeding stock from our family.

Cattle will be on display beginning September 16 with a social hour to follow that evening at the ranch at 5 pm. Lunch will be served on sale day, September 17, at 11:30 AM MST with the sale beginning shortly thereafter at 1:00 pm MST.

Sincerely,

Mark & Cristy Cooper Family

Deliveries will be too central points.

Terms/Conditions

All sales are cash unless arrangements are made with seller prior to the sale. All announcements made from the auction stand take precedence over printed material. Each animal will be sold to the highest bidder with the auctioneer settling any disputes. The animal becomes the property of the purchaser as soon as sold. Any death or injury thereafter falls upon the buyer.

All animals in the sale are guaranteed breeders. If failing to be satisfactory, they must be reported to or returned in good condition and in compliance with the health regulations of MT to CHR by August 1, 2020. The seller reserves the right to try said animal for six months, and if it proves a breeder, to return it to the buyer at the buyer's expense. If an adjustment is required, it will be made with a replacement animal of equal value (or) credit on the purchase of another animal in our NEXT sale. No adjustments will be made after (9) months of sale day. Any person attending the sale does so at his/her own risk. Neither the owners nor any person associated with the sale assumes any liability, legal or otherwise.

◆ A strong producing 175E daughter with a consistent record and an excellent EPD panel with strength in performance and maternal. The shot of the 440P cow on the bottom side of this pedigree surely doesn't hurt! Son sold in our 2016 sale for \$32,500 to Vernie and Shiloh Doehring, Noack Herefords LLC, and Ridder Herefords; two top-end daughters remain in our herd. 123Y ranks in the top 10% of breed for WW, YW and M&G.

◆ A 9016W daughter that, as I look back, should have entered our ET program this spring. A female with loads of volume and rib, she's always produced solid calves. Sons have sold to Stroh Herefords, Hillview Herefords, Borba Cattle Co. and Harding Bros. Herefords. Two daughters sold to Dan Bixler and another remains in our herd and will enter our ET program next spring. 1152Y is raising a top-end 7131E son that will surely be a highlight in our spring 2021 sale.

◆ A top-end donor cow with as much volume and depth of rib as any cow in the sale. 2185Z is a super maternal female with an excellent udder and a lot of carcass merit. She's been flushed five times and has averaged 10 viable eggs per flush. Herd sires have sold to L Bar W Cattle Company (\$30,000), Holden Herefords and B&D Herefords (\$27,000), Stroh Herefords (\$18,000) and Behm Herefords (\$10,000). Six females remain in our herd. Daughter sells as Lot 5166C.

◆ This proven donor cow out of 175E is a Dam of Distinction that combines calving ease and maternal excellence with strong carcass merit. She's a moderate cow with extra pigment and loads of volume. Offspring have always performed well - son 7195E sold to W4 Ranch (\$32,000) in our 2018 sale and herd bull 9109G to Pedretti Ranches (\$7,000) in our 2020 sale. Five daughters remain in our herd, and one daughter, certainly a donor prospect, sells as Lot 512C.

◆ Another good looking, easy keeping 105Y daughter with excellent calving ease and maternal strength. Phenotypically, this cow is very similar to her full sister 359A but with a little more size, volume and carcass merit. She ranks in the top 10% of breed in CED, BW, DMI, SCF, MM and BMI. Son sold to Troy Miller Ranch in our 2016 sale for \$16,000. Full sisters sell as Lots 359A and 397A; maternal half sisters sell as Lots 571C and 5122C.

◆ This 216Z daughter has tremendous volume and capacity. She's short marked with 100% pigment and plenty of maternal power. Always a solid producer, her four calves have an average WR 110. Sons have sold to Hermann Ranch, Jeff Lauber, Troy Miller and Helbling Herefords. Three daughters remain in our herd and one daughter sells as Lot 8143F. This donor sells open and ready to flush!

◆ Loads of volume and spring of rib combined with 100% pigment. This 215Z daughter has a really solid maternal pedigree and an excellent EPD panel that reflects the powerful performance numbers and carcass merit for which her sire excels. 456B ranks in the top 10% or better for WW, YW, CEM, CW, Marbling and \$CHB. Excellent carcass numbers with the data to back it up - individual IMF (151); 15 calves IMF (108) and REA (100). 456B is a full sister to Holden Hereford's herd sire, 420B. Sons sold as herd bulls to Helbling Herefords (\$10,000) along with Lowell Fisher Family and The Berry's (\$25,000). Daughters sold to Loehr Herefords and Ross and Shelley Hendershot.

- ◆ Proven donor cow out of 215Z!! 4136B combines generations of calving ease with solid performance. She's a good, stout, moderate cow with 100% pigment and loads of volume. Not many flaws in her EPD panel where you'll notice some excellent numbers for marbling!! Ranks in the top 10% or better for CED, BW, Fertility, CEM, Marbling and \$BMI; top 20% for DMI, SCF and Teat. 4136B entered our ET program this spring – we are anticipating some excellent calves out of our 942G herd bull. Son sold to Holden Herefords and Helbling Herefords in our 2020 sale; daughter sells as lot 711E.
- ◆ Retaining the right to one flush at our expense.

◆ Good producing 177R daughter backed up by some great cow families. Nearly 100% pigment with a balanced EPD panel that ranks in the top 30% or better in 9 traits. You've really got to like the bottom side of this pedigree; both 958W, currently owned by L Bar W Cattle Co., and 440P were outstanding cows. 4191 B has a solid production record with an average WR and YR 104 on four calves. Bred AI to 710E - Bull calf should be a good one!!

◆ A super nice 386A daughter with good length and lots of rib and volume. Maternal excellence abounds in this pedigree and is reinforced by a strong production record. We flushed 528C in 2019 and have a really nice set of calves that we are excited to wean this fall. She ranks in the top 10% for CW and marbling; top 30% or better in 10 additional traits. Her progeny have an average WR 107; her individual marbling ratio was 120. Son 878F sold to Stroh Herefords in our 2019 sale and we have some nice calves out of him on the ground.

- ◆ Another terrific female out of 386A - you'll like her length, volume and capacity. She's marked up well, has nearly 100% pigment and a pedigree full of cows with balanced udders. We flushed 570C in 2019 in large part because of her udder and outstanding production record; calves have an avg. WR 110 and avg. YR 104. Lots of carcass merit in this pedigree; individual Marbling ratio 141 and REA ratio 115. Son sold to OJ Finlinton in our 2020 sale.

◆ A really functional cow that is moderate in size and marked up nicely. She's a 2005Z daughter with a strong production record and EPDs that reflect strength in carcass and calving ease. She ranks in the top 10% of the breed for CED and marbling and her progeny have an avg. WR 109, avg. YR 106 and avg. marbling ratio 108. Full and half sibling sell and are all really nice cows – full sister sells as Lot 5122C and maternal half sisters sell as Lots 359A, 367A and 397A.

- ◆ A really stout 4163B daughter with mass, volume and 100% pigment. You'll find a good deal of performance in this pedigree along with consistent ratios across the board. We flushed 615D in 2019 and her bull calf, out of 7156E, may earn someone a beer for the heaviest weight come weaning. Lots of carcass merit in this pedigree as well; individual REA ratio 106 and Marbling ratio 139. Maternal sister sells as Lot 7141F.

- We couldn't decide which of these cows to place in the sale, so we decided to leave the decision up to the buyer. Like her full sister, 671D is a young cow with a lot of promise. Solid marked with good pigment and a red neck, she's very balanced in phenotype and has a beautiful profile. Loads of maternal power throughout this pedigree. Solid production record with an avg. WR and YR 104. EPD panel ranks in the top 30% in 12 traits with emphasis in maternal and carcass. Sons sold to Borba Cattle Co. and to Ron Struempler this past spring. Selling buyers choice between Lots 630D and 671D.

- ◆ A really powerful 1013Y daughter with volume, depth of rib, and as a good of an udder as you'll find. 687D is short marked, has 100% pigment, and overall, just a really tremendous look about her. Backed up by the legendary 440P cow, it's surely nice to bring the old 9126J pedigree back to the forefront!! Listing her in the sale was a tough decision for us. She lost her pregnancy this summer otherwise we'd certainly not be letting her go as she's always been a favorite amongst the crew. Daughter sells as lot 9176G. Selling open and ready to flush; retaining the right to one flush at our expense.

◆ A 215Z daughter out of a top-notch cow family. For a young cow, 7185E really has a lot of depth of rib and volume. Should prove to be a really functional female that combines growth with maternal, along with strong marbling numbers. Dam sold in our 2019 sale to Rocking W Ranch; half maternal brothers sold to Roger Jennings, Dudley Brothers, Hermann Ranch, Troy Miller and the "dynamic duo" (Reich Bros. & Ron Carlstrom).

- ◆ Fantastic opportunity in this female - her pedigree is loaded with some great cows including dam 687D and powerhouses 055X and 440P. A really balanced heifer with eye appeal and power!! 9176G has 100% pigment and ranks in the top 25% of the breed or better in 8 traits with emphasis in carcass merit. We hate to even list her in the sale as we know she has tremendous potential. Dam sells as lot 687D.
- ◆ Retaining the right to one flush at our expense.

CL 1 Dominette 687D 1ET —
 Dam of Lot 9176G

CL 1 Dominette 055X —
 Grandam of Lot 9176G
